SHAKESPEARE— & What Is Love?

AN AESTHETIC REALISM THEATRE COMPANY PRODUCTION

A Dramatic Presentation
of Eli Siegel's 1951 lecture on

The Taming of the Shrew

— with scenes from the play —

This wild yet puzzling comedy has been explained by Eli Siegel, founder of Aesthetic Realism. He shows that the “shrew,” Katherina, is deeply hoping to meet someone who will make her feel the world deserves her respect! Petruchio meets this hope—in the most surprising and often hilarious ways—and that is why she comes to love him. Mr. Siegel says:

“Shakespeare was solving a problem through these people of Padua that he saw as an everlasting problem of persons.”
